The nominations for the Federal bye-elections yesterday were: Kingston, Metcalfe, Conservative; Gunn, Liberal; Lincoln, Nelson, Conservative; Gibson, Liberal; Halton, Henderson, Conservative; McGregor, Patrons of Industry.

The Provincial election campaign is growing in excitement. Revelations made by the new Royal commission are adding fuel to the flame and the struggle is becoming more bitter every day. Latest developments show that \$25,000 were paid to Langlais on a contract he was giving to Mercier's brother, and by him handed to Geoffrion, the chairman of the Liberal committee in the Federal election campaign, and was used for election purposes in March last. Mercier, his brother and Geoffrion have made affidavits that the Premier knew nothing of the transaction.

ROBT. Johnstone is building a semi-attached dwelling, 28x30, and a kitchen, 18x12, on his lot, Methodist mission property.

THE wheat shipped by John Cameron to the east has arrived at its destination and has given good satisfaction. Mr. Cameron reports that very little grain is coming in at present.

CONSIDERABLE discussion has been going on during the past week as to who will form the first town council of Edmonton. A requisition, signed by some eighty electors, was presented to M. McCauley, on Wednesday, requesting him, when the time arrives for so doing, to allow himself to be nominated for the mayoralty. We understand that Mr. McCauley is willing to accept the nomination.

THE end of the close season for ducks, geese, snipe and plover has been changed from September 1st to August 15th, and the close season for prairie chicken commences on January 1st instead of February 1st as formerly. No prairie chicken are allowed to be sold except by the party who has caught or killed them, the idea being to prevent wholesale killing and marketing of these birds, but still permits the consumer to purchase them direct from the hunter.

HUGH McKay received a letter this week from Wm. Brown, of Lockerby Mills, Paisley, Ontario, asking if there was an opening for an 80 barrel roller mill, as he is dissatisfied with his present location. Mr. McKay returned him a favorable answer and suggested the advisability of Mr. Brown paying Edmonton a visit and looking over the ground for himself. Edmonton is being extensively enquired about on this subject and there is not the least doubt that next fall will see us in possession of this much to be desired improvement.

A PUBLIC meeting was held at Beaver lake, on January 4th, at Robert Logans, for the purpose of urging the Dominion government to establish a postoffice on the west side of the lake. R. McKenzie took the chair and Geo. L. Bickler acted as secretary. It was decided to draw up a petition and have the same forwarded to the Postmaster General and also a copy to D. W. Davis, M. P., asking that a postoffice be established to be known as Logan postoffice with R. A. McKenzie as postmaster, with office in his residence situated on SE 1/4 of section 6, township 52, range 18, and that the mail be a fortnightly one. The petition has since been signed by 58 residents. The settlers in the vicinity of Beaver lake have long labored under the disadvantage of having to travel to Fort Saskatchewan for their mails, and as there has been considerable addition to their numbers during the past year with every prospect of a larger increase next season, it is only right that their wants, in this matter, should be attended to.

The Canadian Gazette, London, England, has the following paragraph: "The Hon. Thomas Greenway, premier of Manitoba, has instructed Mr. McMillan, the agent in England of the Manitoba government, to make every possible effort to induce agricultural laborers to go to Manitoba next year. During the year just closing the grain crop in Manitoba has been unprecedentedly large, and as the acreage under crop has also increased considerably, it appears that farmers were unable to gather the harvest as quickly as desired. Whilst farm laborers get £4 to £5 working the year round, at special seasons, such as hay making and harvest time, they are paid as much as £7 or £8 per month. During the last three years the demand for men has steadily increased, owing to the much larger acreage under crop, and the Manitoba government has decided to do everything possible to meet the demand in future."

President Van Horne and other Canadian Pacific officials arrived in Quebec on the 13th inst. to arrange for the immediate construction of the new Canadian Pacific hotel there, and made a survey of the road from Montreal to Quebec in view of the contemplated works and improvements about to be made between Montreal and Quebec, and the building of grain elevators on the Louise embankment.

For the first time in four years the Mississippi river is frozen over at nine miles south of St. Louis, Mo., and extends to the Illinois shore. River men express the fear that the river will not be open for boats inside of thirty days. If the present cold weather continues and the ice should move with a rush, it is feared that much damage will be done to river boats.

Mr. C. C. Chipman, commissioner of the Hudson's Bay Company, has accepted an invitation from the Imperial Government Colonization Board to become a member of the sub-committee of the board at Winnipeg.

From all parts of New Brunswick reports are received as to the alarming spread of la grippe. There are thousands down with it in the city of St. John, some cases being of a very serious character.

Baroness Macdonald is having a summer bungalow of logs built at Banff, the site being near the C. P. R. hotel. The cost will be \$1,200 to \$1,500. It is expected that she will spend a portion of each summer at Banff.

AGRICULTURAL SOCIETY.

The annual general meeting of the Edmonton agricultural society was held in the Public School house on Saturday afternoon at 1:30 p. m. and was well attended by the farmers of the surrounding district. The financial statement of the society was read showing receipts from all sources of \$730.88 and expenditures \$602.14, leaving a balance to the credit of the society of \$128.74.

The election of officers was then proceeded with and resulted in the following board being elected for the ensuing year: Matthew McCauley, president; 1st vice-president, Murdoch McLeod, Belmont; 2nd vice-president, J. C. C. Bremner, Clover Bar; Directors Robt. McKernan, South Edmonton; W. H. Stephens, East Edmonton; F. Adamson, Clover Bar; Wm. Walker, Fort Saskatchewan; John Looby, Edmonton; D. C. Robertson, Edmonton; G. S. Lowy, Sturgeon River; Robt. Kelly, Sturgeon River; Alex. McNabb, Stony Plain; Thos. G. Hutchings, Poplar Lake; Auditor, John A. McInnall; Secretary-treasurer, Campbell Young.

M. McCauley the president in the course of a few remarks called the attention of the farmers of the district to the change of date in the Winnipeg exhibition and asked their co-operation in collecting samples of grain for next years competition there. The importance of obtaining good clean wheat for seed was also spoken about but many of those present stated that the samples of their wheat was spoken highly of where ever it had been sent east and they desired they could improve on what they had. The meeting then adjourned.

GRAIN RATES.

The following special rates have been granted by the C. P. R. from Edmonton to Calgary and points west, on all freight taken this class in car loads of 30,000 pounds, such as all kinds of grain, potatoes, etc.:

Edmonton to Calgary	24c	per 100 pounds.
" Banff	28½c	" "
" Donald	37½c	" "
" Revelstoke	44c	" "
" Kamloops	51c	" "
" Ashcroft	53c	" "
" Lytton	55c	" "
" North Bend	56c	" "
" Yale	57½c	" "

The rate to Vancouver is still 55c and to Victoria 60c. This reduction is not nearly as great as it ought to be, but it is in the right direction, and gives Edmonton improved access to the markets of Calgary and the interior of British Columbia, which are our natural call, and therefore our best markets. The rates hitherto have been prohibitive and no business has been done, although Edmonton has the stuff and these places want it, and Edmonton is the nearest point at which they can get it. Even the reduced rates are almost prohibitive, and will have to be still further reduced before much business can be done, or the C. P. R. be considered as giving the settler in this part of its domain the due advantage of his situation.

Census Bulletin No. 3 is to hand and deals with the Maritime Provinces. In the introduction to the figures of the bulletin the statistician says that during the three marine provinces together, the population increased 13.5 per cent. in 1881, as compared with 1871 and barely 1.2 per cent. in 1891 as compared with 1871. Families are becoming smaller. In 1811 the average per family was 5.74 persons, in 1881 3.57 persons and in 1891 3.13 persons. The causes given for this decrease are: 1st, the decay of early marriages, and 2nd, the increasing tendency to celibacy. "But the reduction in the average family does not account for the stagnation of the population revealed by the census returns. The population has remained in larger numbers than in previous decades. The people of these provinces have gone during this past ten years, in an increasing degree, to the western portions of our own country. While this latter statement is doubtless correct in itself, it is skillfully placed so as to create a false impression—the impression that those whom the census proves to have been lost to the eastern provinces, are found by the census in the western provinces. While it is a gratifying fact that the migration from the maritime provinces to the Northwest is increasing yearly, it is not less a fact that emigration from those provinces to the United States is and for years has been far in excess of the emigration to the Northwest. It may be a state-sensible policy to avoid taking any action to alter this undesirable state of affairs, even to the extent of denying its existence, but most people will hold the opinion that it is ten times more important and desirable to hold our own population in one part of the country or another wherever in fact they can use their energies to the best advantage than to get population from the outside. And yet it is and has been the policy of our government to stand by and idle while our neighbors and rivals used every means to attract from us our yearly natural increase of population. With what startling success the cold figures of these returns too plainly show.

STURGEON NOTES.

(Correspondence.)

Miss Jessie Maxfield has been in town visiting friends.

We are glad to hear that Mr. G. Reid's foot is improving.

If you want good oats barley and wheat come to the Sturgeon.

W. Latimer and W. K. Powell are preparing to erect new houses in the spring.

F. Armstrong was out here visiting for a few days at his brother-in laws, Mr. C. Carson.

Tenders are out for the purpose of securing a secretary and treasurer for Sturgeon school.

C. Carruthers has been very bad with rheumatism all fall and winter. It is to be hoped that he will soon recover.

Frank Smith has erected a dwelling on his place, which he entered for a few days ago. So no other homesteaders should do likewise.

A number of the farmers are about to build a temporary bridge across the Stur. e n, at J. R. Matheson's old place, for the purpose of crossing to the north side for rails.

Messrs. K. Powell and J. Cummings, of Sturgeon, have the contract of putting up a house for Thomas Gowler on the northeast quarter of section 26, township 54, range 24.

On Thursday evening of last week, Mr. Thos. A. Wilson was returning home from Edmonton, when got as far as the Sturgeon church, he saw a suspicious looking character approaching him brandishing a stick about his head. Mr. Wilson became somewhat alarmed at such a fiendish looking object, so he quickly secured a club which he got nearby, and made for his supposed enemy who took to his heels and beat a hasty retreat towards Edmonton, followed closely by Mr. Wilson for half a mile along the Edmonton trail.

EXPLANATION WANTED.

To the Editor of the BULLETIN.

Having heard that the members of the Edmonton Protestant school board have engaged a teacher to take the place of Miss Henderson without her being notified that her services, as teacher, were no longer required. I would like to know he can say why she was so treated, particularly as she has just recovered from a severe illness.

Cardinal Simoni, formerly papal secretary of state and prefect general of the Propaganda, died at Rome on January 14. His death was due to an attack of the influenza from which he had been suffering several days.

The provincial bye-elections for South Winnipeg and Manitou on the 13th inst. resulted in the election of Cameron (government) for the former and Houston (opposition) for the latter. Both were formerly represented by government supporters. In South Winnipeg the contest was fought principally on the government school policy. In Manitou other acts of the government were given equal prominence.

Calgary Herald, January 13: The Regina Leader of this week is to hand. It promised last week to substantiate certain charges against Hon. E. Dewdney, but it has failed to offer any evidence whatever. What its readers had a right to expect were "the proofs," but these are not forthcoming.

Montreal Gazette: Hon. Mr. Dewdney has not been long in replying to Mr. Davin's charges in connection with that Regina quarrel section. He says he advised Green to take the land, that Green did so and owns the property, and that he (Mr. Dewdney) never made any profit or had any interest in the affair. As an initiator of Mr. Tardif, the Windy Bard of the Prairies appears to have been more successful in the completeness of his collapse.
